

## Corrigendum

David A. Cleveland / Is plant breeding science objective truth or social construction? The case of yield stability. *Agriculture and Human Values* 18(3): 251–270, 2001.

Figure 2 on page 258 was incomplete: in the key, item D was incomplete and items E and F were missing. The correct figure has been printed below. The Publisher regrets any inconvenience caused.

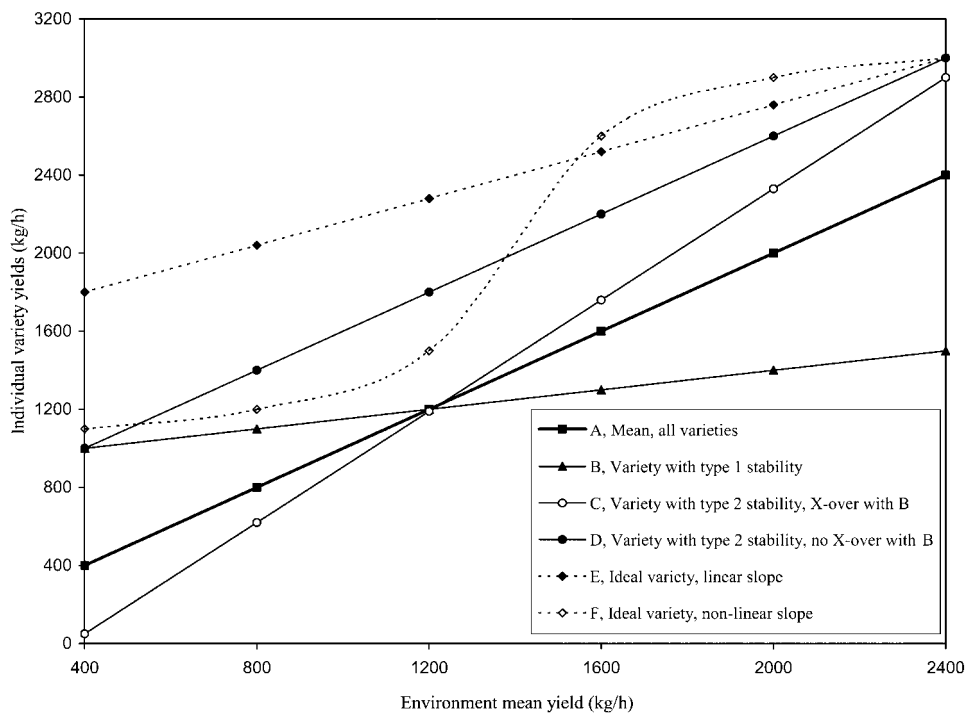

Figure 2. Different types of varietal yield stability in terms of regression slopes.
